

Supporting Partners

A Park For All is a 501c(3) not-for-profit corporation organized by interested community volunteers to develop a barrier-free, outdoor recreation environment. The purpose is to create a safe and family-friendly park for people of all abilities and all ages in Mission, Kansas.

We invite you to become a Supporting Partner of A Park For All!

Supporting Partners:

- have an understanding of the Park project and who it will benefit;
- support the project and tell others;
- in the spirit of support, allow your organization's name to be listed as a "Supporting Partner" on A Park For All's web site with a link back to your site. Periodically, we would like to include your organization's name on informational materials;
- will complete an evaluation survey, once the park is built, to provide valuable feedback on the new park.

Thank you for your support!
